¹ Fleet only option. Pricing is for non-reflective material, 25 vehicle order minimum, and graphic design must be completed and approved by Ford prior to ordering vehicle in CONCEPS. To get started visit the Ford Commercial Graphics website and click on Factory Orderable Option Form link. Complete and submit the request form and attach your graphic design (if available). A Ford Commercial Graphics representative will follow-up to finalize the graphic design and provide a design proof for customer review and approval, and to determine which graphic option code and price applies. Lastly, customer can then proceed to place vehicle order and graphic option code in CONCEPS.

Additional equipment combined with a Certified calibration reflash is required, from an external upfitter, to convert the vehicle to a CNG/Propane-fueled vehicle.*

Ford Motor Company does not provide an exhaust or evaporative emissions certificate with this option when converted to use CNG or Propane fuel. Ford does not represent that a vehicle converted to use CNG or Propane will comply with all applicable U.S. or Canadian safety standards. It is the responsibility of the final stage manufacturer (body-builder, installer, alterer or subsequent stage manufacturer) to determine that any vehicle converted to use CNG or Propane complies with U.S. Federal, California or Canadian exhaust and evaporative emission requirements. Federal fuel economy standards, U.S. and Canadian safety standards, labeling and other requirements.
